Company Overview: VCI has been doing business in Colorado since 2006, and Ben Mendoza, principal of VCI, has been actively involved in construction industry for over 37 years. Projects have included vertical & horizontal construction as well as construction compliance inspections and quality control/assurance efforts. VCI’s principal has expertise in building codes & inspection services working for several building departments, managing building departments and providing quality assurance services to Schriever AFB & the US Army Corps of Engineers. VCI’s experience also includes design/build efforts, constructability assessments and project/construction management. The expertise of VCI and its experience working as a contractor, as a designer, as an owner’s representative and as the government’s inspection/approval authority places it in the unique position of being able to comprehensively address its projects. Through this VCI appropriately plans projects and then properly executes those plans to deliver projects which are completed in a more cost effective and timely manner for the benefit of the owner and ultimate end-users.
